## **DETAILED ACTION**

### ***Response to Amendment***

1. Receipt is acknowledged of the Amendment filed June 21, 2007. The applicant amended claims 1, 45, 48, 51, 56, 58, 61, 64, 65, 68, and 70.

### ***Allowable Subject Matter***

2. Claims 1 and 45-70 are allowed.

The following is an examiner's statement of reasons for allowance: none of the cited references, taken alone or in combination, discloses, teaches, or fairly suggests the claimed apparatus and method comprising, among other things, a security system to allow individuals physical access to an automated banking machine component interior having restricted access, at least one processor to allow physical access to the component interior responsive to a positive determination by image recognition software, and a lock control device requiring entry of multiple combinations to permit access to the interior of a security container within an automated banking machine wherein at least one processor is operative to reduce the number of required combinations responsive to a positive determination. After further search and thorough examination of the present application and in view of the Applicant's arguments and amendments, claims 1 and 45-70 are found to be in condition for allowance over the prior art made of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
